

**Office of
Mental Health**

New PSYCKES Features Release 7.5.0

We will begin shortly

To hear the webinar, click “Call Me” in the Audio Connection box and enter your phone number - the WebEx system will call your phone

If you do not see the Audio Connection box, go to the top of your WebEx screen, click “Communicate” > “Audio Connection” > “Join Teleconference”

Kristen McLaughlin, MA
Medical Informatics | PSYCKES
Office of Population Health & Evaluation
July 13, 2022

Q&A via WebEx

- All phone lines are muted
- Access “Q&A” box in WebEx menu at the right of your screen; if you expanded the view of the webinar to full screen, hover cursor over bar at top of screen to see menu
- Type questions using the “Q&A” feature
 - Submit to “all panelists” (default)
 - Please do not use Chat function for Q&A
- Slides will be emailed to attendees after the webinar

Agenda

- PSYCKES Overview
- Demonstration of New Features in Release 7.5.0
 - Homelessness Information from NYC Department of Homeless Services & Medicaid Data
 - Crisis Services in Report Filters and Clinical Summary
 - CORE Services in Report Filters and Clinical Summary
 - OPWDD Habilitation Services in Report Filters and Clinical Summary
 - New Quality Indicator Set: General Medical QARR – DOH Measures for Stratification
 - iOS Mobile App Release 5.2 Enhancements
- Training & Technical Support

PSYCKES Overview

What is PSYCKES?

- A secure, HIPAA-compliant online application for sharing Medicaid claims and encounter data and other state administrative data
- Designed to support data-driven clinical decision-making, care coordination and quality improvement
- Ongoing data updates
 - Clinical Summary updated weekly
 - Quality Indicator reports updated monthly

Who is Viewable in PSYCKES?

- Over 10 million NYS Medicaid enrollees (currently or past)
 - Fee for service claims
 - Managed care enrollees, all product lines
 - Dual-eligible (Medicare/Medicaid) and Medicaid/Commercial
- Behavioral Health Population (any history of):
 - Psychiatric or substance use service,
 - Psychiatric or substance use diagnosis, OR
 - Psychotropic medication
- Provides all data – general medical, behavioral health, residential

What Data is Available in PSYCKES?

- Clinical Summary provides up to 5 years of data, updated weekly
- All Medicaid FFS claims and Managed Care encounter data, across treatment settings
 - Medications, medical and behavioral health outpatient and inpatient services, ER, care coordination, residential, lab, and more!
- Multiple other state administrative databases (0-7 day lag):
 - **NEW!** New York City Department of Homeless Services (NYC DHS)
 - Health Home enrollment & CMA provider (DOH MAPP)
 - Managed Care Plan & HARP status (MC Enrollment Table)
 - MC Plan assigned Primary Care Physician (Quarterly, DOH)
 - State Psychiatric Center EMR
 - Assisted Outpatient Treatment provider contact (OMH TACT)
 - Assertive Community Treatment provider contact (OMH CAIRS)
 - Adult Housing/Residential program Information (OMH CAIRS)
 - Suicide attempt (OMH NIMRS)
 - Safety plans/screenings and assessments entered by providers in PSYCKES MyCHOIS
 - IMT and AOT Referral Under Investigation (DOHMH)

Quality Indicators “Flags”

- PSYCKES identifies clients flagged for quality concerns in order to inform the treating provider or network and to support clinical review and quality improvement
- When a client has an applicable quality flag, the provider is allowed access to that individual’s Clinical Summary
- Examples of current quality flags include:
 - No diabetes monitoring for individuals with diabetes and schizophrenia
 - Low medication adherence for individuals with schizophrenia
 - No follow-up after MH inpatient within 7 days; within 30 days
 - High utilization of inpatient/emergency room, Hospital Readmission
 - Eligible for Health Home Plus - No Health Home Plus Service Past 3 Months, HH Enrolled, Eligible for Health Home Plus - Not Entered as Eligible in DOH-MAPP Past 3 Months

7.5.0 New Features!

Homelessness Information from NYC DHS & Medicaid

Homelessness Data

- New information has been added to PSYCKES for people experiencing homelessness currently, recently or in the past. This information comes from two data sources:
 - New York City Department of Homeless Services (NYC DHS): Shelter name, program type, placement date, exit date, exit reason, and shelter director contact information
 - Medicaid billing data: Information from procedure codes (z codes) on a billing claim/encounter, entered by any provider statewide with awareness of their client's homelessness; specifies sheltered homelessness, unsheltered homelessness, or unspecified, along with provider name, program name, and date(s) of service
- This homelessness information will be available in two PSYCKES reports:

Crisis Services in Report Filters and Clinical Summary

**Office of
Mental Health**

Crisis Services

- As of this release, the “Brief Overview” will now display community-based crisis services in the newly named “All Hospital and Crisis Utilization” section
- The community-based crisis services include:
 - CPEP Mobile Crisis
 - Previously, CPEP Mobile Crisis was rolled up under ER – MH CPEP and was not distinguishable from other CPEP services
 - Crisis Telephonic – This Crisis Intervention Service category includes both Response and Follow-Up
 - Mobile Crisis – This Crisis Intervention Service category includes both Response and Follow-Up
 - Crisis Residential – This category includes Children’s Crisis Residence, Intensive Crisis Residence, and Residential Crisis Support
 - Crisis Stabilization Center

General Medical QARR – DOH Measures for Stratification

General Medical QARR – DOH Measures for Stratification

■ Indicator Set

- A new quality indicator set has been added to My QI Report, Statewide Reports, Recipient Search, and the Clinical Summary, when applicable
- The measures in this new set are calculated monthly by the Department of Health (DOH) after allowing for a 6-month Medicaid billing maturation period. The measures are sent to OMH and are displayed in the PSYCKES application, through the lens of quality improvement opportunities
 - This means clients “flagged” in the numerator have not received the recommended services.

General Medical QARR – DOH Measures for Stratification

■ Indicators

- To start, there are two measures (and a summary measure) in this new set with the following descriptions:
 - **Overdue for Colorectal Cancer Screening:** The percentage of individuals 50-75 years of age who did not have appropriate screening for colorectal cancer. Appropriate screenings include: Fecal occult blood test in the past year, Flexible sigmoidoscopy in the past 5 years, Colonoscopy in the past 10 years, CT colonography in the past 5 years, or FIT-DNA test in the past 3 years.
 - **No Well-Care Visit > 1 Year – Child & Adolescent:** The percentage of individuals 3-21 years of age, who did not have at least one comprehensive well-care visit with a PCP or an OB/GYN practitioner during the measurement year.

iOS Mobile App Release 5.2

iOS Updates

- All the previously discussed changes made to the PSYCKES client-level Clinical Summary in release 7.5.0 have been included in the iOS mobile app, including:
 - Homelessness information from NYC Department of Homeless Services and from Medicaid Data
 - Community-based Crisis Services; until now these services were not displayed in the mobile app
 - CPEP Mobile Crisis, viewable as a service type separate from ER – MH CPEP
 - New medical quality flags, as described above, if applicable to the client
 - Community Oriented Recovery and Empowerment (CORE) services, in the Behavioral Health Services section, if applicable
 - OPWDD Habilitation Services, in the Living Support/Residential section, if applicable

Have you heard about the Self-Service Console?

- The Self-Service Console is a way to manage your RSA token and PIN, for logging into secure OMH applications, including PSYCKES
- The console is accessed at: mytoken.ny.gov
- From within your Self-Service Console account, you can:
 - Set security questions
 - Reset your PINs
 - Activate tokens
 - Request a replacement token
- We recommend all users set up security questions in the console so that you can reset your own PIN if ever needed
- As of April 2022, the console must be used when new users need a token or existing users need a replacement token
