CCBHC Data Sharing with Managed Care Organizations (MCOs)

NYS DOH has allowed New York's CCBHC Demonstration services to be carved-out of Managed Care and billed fee-for-service (FFS) to the state. The FFS carve-out began July 1st, 2017 and will continue until the Demonstration ends. Although Demonstration services are currently carved-out, Managed Care Organizations are still able to access client level CCBHC data for HEDIS and NCQA reporting using the existing DOH monthly FFS Claims Data Report.

DOH's FFS Claims Data Report can be accessed by Managed Care Organizations through the Secure File Transfer Utility located on the MEDS III Home Page on the Health CommerceSystem (HCS) with the CCBHC rate code (1147) information located on the report in record position 216-219. Please see page 62 of the [CCBHC MCO Operations Manual](#) for information on the specific data elements included in the monthly report.

Further questions about data and oversight may be submitted to the NYS Office of Mental Health [Bureau of Program and Policy Development](#).
