Subject: LPHA Recommendation / Determination of Medical Necessity for CORE Services

Date: 10/19/2021

LPHA Recommendation / Determination of Medical Necessity for CORE Services

Overview & Menu of CORE Services

CORE Services are a Medicaid Managed Care benefit which provide rehabilitation and support services for enrollees with behavioral health disorders. These services are intended to support the individual as they pursue meaningful recovery goals related to how they choose to live, work, learn, and socialize.

*Community Psychiatric Support and Treatment* is a community-based clinical treatment service for individuals who have had difficulty accessing or benefiting from site-based treatment options.

*Psychosocial Rehabilitation* is a skill building service focused on pursuit of meaningful recovery goals in settings where the individual lives, works, learns, and socializes.

*Family Support and Training* is a person-centered service available to individuals and their families of choice with an emphasis on increasing the ability of the family to support the individual in their recovery.

*Empowerment Services – Peer Support* is peer-delivered service that focuses on recovery, resilience, and rehabilitation through shared lived experience.

Eligibility for CORE Services

A member must have met the NYS high-needs BH criteria (commonly referred to as HARP eligibility algorithm) and be enrolled in an eligible Plan type, HARP or HIV SNP to be eligible for CORE services.

CORE services require a recommendation of a Licensed Practitioner of the Healing Arts (LPHA).

You can find out someone’s H-code status by looking in ePACES or PSYCKES, or by calling their Managed Care plan.

- H1 indicates a member is enrolled in a HARP and has met the BH high-needs criteria
- H4 indicates a member is enrolled in a HIV SNP and has met the BH high-needs criteria
- H9 indicates a member has met the NYS BH high-needs criteria

LPHA Recommendation

The LPHA recommendation is a determination of medical necessity for CORE Services. The recommendation may be made for one or multiple services. There is no standardized assessment process or tool necessary to complete the recommendation; the recommendation is based on your clinical discretion. The LPHA recommendation is documented using a *standardized template* released by the State. The LPHA Recommendation Form should be kept on file in the individual’s CORE Services case record. If the individual is found eligible for services, the CORE Services Provider will conduct an intake and engage the individual in a person-centered planning process to determine frequency, scope and duration.

---

1 Individuals falling into this category are eligible to receive CORE Services when enrolled in a HARP or HIV/SNP. Eligible individuals with an H9 wishing to enroll in a HARP or HIV-SNP may contact NY Medicaid Choice at 1-855-789-4277 for enrollment options.
Who should complete the LPHA Recommendation?

Any qualified LPHA connected to the individual should complete the recommendation. See LPHA Recommendation Form for list of qualified LPHAs. This may include but is not limited to outpatient clinicians, primary care practitioners, and qualified care managers/ supervisors. Additionally, the CORE Services provider may have an internal LPHA able to complete the recommendation upon referral, but capacity for this will vary by provider.

Questions

Any questions regarding the LPHA Recommendation for CORE Services may be submitted via email to Adult-BH-HCBS@omh.ny.gov or PICM@oasas.ny.gov.
### Recommendation for Community Oriented Recovery and Empowerment (CORE) Services

**Determination of Medical Necessity**

#### Part 1: HARP Eligibility

**Instructions:** This section may be completed by the care coordinator, Managed Care Organization (MCO), CORE Services Designated Provider, LPHA, or any other entity with appropriate access to the client record.

| Member Name: | ___________________________________________________________ |
| Member DOB: | ______________________ |
| Member Phone #: | ______________________ |

**HARP Status:**

- □ H1: HARP-Enrolled
- □ H4: HIV/SNP-Enrolled, meets NYS BH high-needs criteria
- □ H9: meets NYS BH high-needs criteria
- □ Other: ________________________________________________

#### Part 2: Recommendation for Services

**Instructions:** This section must be completed by a Licensed Practitioner of the Health Arts (LPHA), as defined by:

- Nurse Practitioner
- Physician
- Physician Assistant
- Psychiatric Nurse Practitioner
- Psychiatrist
- Psychologist
- Registered Professional Nurse
- Licensed Mental Health Counselor

Note: The CORE Services designated provider will conduct an intake and engage the individual through person-centered planning to determine frequency, scope, and duration of recommended services.

**Recommended Services**

Select all that apply:

- □ Community Psychiatric Treatment and Support
- □ Psychosocial Rehabilitation
- □ Family Support and Training
- □ Empowerment Services – Peer Support

**Determination of Medical Necessity**

Based on my knowledge of the individual and clinical expertise, the individual needs and/or would benefit from the above selected CORE Services for the following reasons:

Select all that apply:

- □ To increase capacity to better manage treatments for diagnosed illnesses
- □ To prevent worsening of symptoms
- □ To restore/rehabilitate functional level
- □ To increase ability to identify and advocate for effective supports
- □ To facilitate active participation in the individual’s community, school, work, or home
- □ To sustain wellness and recovery-oriented life skills
- □ To strengthen resiliency, self-advocacy, self-efficacy and/or empowerment
- □ To build and strengthen natural supports, including family of choice
- □ To improve effective utilization of community resources

**Diagnosis**

DSM-5 or ICD-10 diagnoses, if known: _______________________________________________________
