

What People are Saying

We asked New Yorkers how 988 has helped them. Here's what they had to say:

"Supportive counselors who **listen without judgment**. Helped during a dark time when hope couldn't be found."

"It helped me to help a friend in crisis. It also gave me coping skills to get through a tough spot myself."

New National 988 LGBTQ+ Youth and Young Adult Support Line

The National 988 Lifeline started a pilot program for LGBTQ+ youth and young adults (under age 25) in Fall 2022. 988 Lifeline callers can press 3 to be connected to specialized LGBTQ+ affirming counselors. This service is also available by texting 988 and by chat at <https://988lifeline.org/chat/>. The LGBTQ+ program is available 24/7.

Training for 988 Counselors

The counselors responding to 988 receive in-depth training. The 988 Lifeline requires all Crisis Contact Centers to follow specific standards regarding Suicide Risk Assessment and Imminent Risk Interventions. All counselors complete high-quality training and supervision before they independently respond to 988 calls, chats, and texts.

The training covers:

- How to respond to crisis callers
- Active listening
- Serving special populations
- Cultural competency
- ...and more

All crisis counselors will handle calls with empathy, professionalism, and confidence.

988: Just the Facts

Since its launch in July 2022, there has been a lot of false information about 988 being shared on the Internet. These are the important facts about 988 in New York that everyone should know.

- **988 and 911 are separate services** with separate contact centers.
- 988 **does not have the ability to track callers' geographic location**.
- 988 is **for more than just suicidal crises**. It is for any problem a person is having that causes them distress.
- 988 offers **free and confidential emotional support**. You will be connected to a trained counselor who will talk with you and offer you support if you choose to accept it.
- You **do not need to provide personal information** when you call 988. The counselor may ask for information, but you can decline to share if you don't feel comfortable doing so.
- 988 is not the 911 for mental health. Rather than immediately sending services to you, **988 provides emotional support from trained crisis counselors**.
- Currently, **less than 2% of calls to 988 require police to be involved**. This typically happens when there is imminent risk to someone's life.
- **80% of calls to 988 are resolved over the phone**. The other 20% usually require agreed-upon mobile crisis or other follow-up services.
- The people answering the 988 texts, chats, and calls are **trained crisis counselors that receive extensive training and supervision, including how to respond to a crisis**.

Remember to Dial 1!

There have been reports of fax machines and other automatic systems making accidental calls to 988. This happens when a system dials “9” to connect outside of the office followed by a phone number that begins with “88.”

Make sure that your systems are set to dial “1” before any phone number (ex: “1-888”) to avoid accidental calls to the 988 Lifeline.

Calling 988 From A Landline?

If a phone system requires that a number is dialed before making an external call, that is likely true for calling 988, too. Ex: Dial 9, then 9-8-8 to complete a call.

Some phone systems may require additional time to make the connection to 988. Don’t be alarmed if it feels like a wait; the call will go through!
