988 FAQ

**What is 988?**

988 is a new three-digit number that connects people to the National Suicide Prevention Lifeline. This service is for anyone who is:

- suicidal
- experiencing a mental health or substance use-related crisis
- experiencing any kind of emotional distress

988 is more than just a number. It is a direct connection to compassionate and accessible care. When you call, text, or chat 988 you are connected to trained counselors that are part of the National Suicide Prevention Lifeline network. Moving to 988 does not mean the 1-800-273-8255 number goes away. Using either number will get people to the same services.

**Why do we need 988?**

Mental health is just as important as physical health. Now there is a three-digit number for mental health emergencies that’s easy to remember: 988 helps New York:

- Connect with people who are struggling with behavioral health (mental health and/or substance use) concerns as soon as possible, 24/7.
- Reduce unnecessary use of law enforcement and other safety resources in crisis responses.
- Meet the growing need for crisis intervention where it’s needed most.
- Shift the mindset about people who struggle with their mental health.
- Reduce healthcare spending with more cost-effective early intervention.

**Will services be offered in other languages?**

The Lifeline currently provides live crisis center phone services in English and Spanish and uses Language Line Solutions to provide translation services in over 150 additional languages.

Chat and text currently available only in English.

**Does it cost money to use 988?**

Contacting 988 is a free service.

---

**Who can contact 988?**

988 is for everyone and it’s more than a ‘suicide’ line. Contact 988 if you are:

- suicidal
- experiencing a mental health or substance use-related crisis
- experiencing any kind of emotional distress
- worried about someone in distress.

988 is for people of all ages, genders, sexes, ethnicities, races, religions, sexual orientations, and socioeconomic statuses. If you are a Veteran or Spanish speaker, 988 has dedicated lines for you.

**What happens when I contact 988?**

When contacting 988, you will first be routed to a local Lifeline crisis center based on your area code. A trained crisis counselor will answer and listen to how your problem is affecting you. They then provide support and share resources if needed. If a local crisis center is unable to take the call, you will be automatically routed to a national backup crisis center. All contact with 988 is voluntary.

**What is the difference between 988 and 911?**

988 provides easy access to the National Suicide Prevention Lifeline network and related crisis resources. This is different from 911, where the focus is on dispatching Emergency Medical Services, fire, and police as needed. The goal of 988 is to meet the growing suicide and mental health-related crisis care needs.

988: Just the Facts

Since the launch in July 2022, there has been a lot of false information about 988 being shared on the Internet. These are the important facts about 988 in New York that everyone should know.

988 and 911 are separate services with separate contact centers.

988 does not have the ability to track callers’ geographic location.

988 is for more than just suicidal crises. It is for any problem a person is having that causes them distress.

988 offers free and confidential emotional support. You will be connected to a trained counselor who will talk with you and offer you support if you choose to accept it.

You do not need to provide personal information when you call 988. The counselor may ask for information, but you can decline to share if you don’t feel comfortable doing so.

988 is not the 911 for mental health. Rather than immediately sending services to you, 988 provides emotional support from trained crisis counselors.

Currently, less than 2% of calls to 988 require police to be involved. This typically happens when there is imminent risk to someone’s life.

80% of calls to 988 are resolved over the phone. The other 20% usually require agreed-upon mobile crisis or other follow-up services.

The people answering the 988 texts, chats, and calls are trained crisis counselors that receive extensive training and supervision, including how to respond to a crisis.

Branding Standards and Logo Downloads

This guide from the Substance Abuse and Mental Health Services Administration (SAMHSA) provides specific information on logo, branding, and guidelines for 988.

Branding Standards

The 988 brand embodies the 988 Suicide & Crisis Lifeline’s ideals and goals. Built on a concept of connecting with those who are experiencing suicidal or mental health crises, the 988 Suicide & Crisis Lifeline brand primarily seeks to offer a sense of hope. We want that hope to encourage people to call, chat or text 988 if they or a loved one are in a suicidal or mental health-related crisis.

Brand Elements

988 Lockup Mark

The clean geometry and typographic design of the lockup provide balance, sensitivity, and strength. The ‘988’ and ‘Lifeline’ elements are bolder; they advance in space and project an instant message of hope.

In both horizontal and square forms, the lockup is designed to mark 988 communications with the assurance of support. The lockup must be used without modification to maintain brand integrity and consistency. Care should be taken to provide enough contrast for lockup legibility.

Color Palette

The 988 color palette offers complementary colors that speak of Hope, calm, and reassurance. The interplay between contrasting cool and warm colors hints at natural emotional rhythms. In addition, each hue is presented with two lighter tints for use when a color’s full strength is not needed.

Typography

These typographic options give a fresh and authentic look and feel across 988 materials.

Futura is a classic geometric typeface that delivers an inviting sense of structure for content titles and key messages.

Acumin is a handwritten-style typeface that conveys sincerity, especially when used for body text.

Arial is a classic geometric typeface that delivers an inviting sense of structure for content titles and key messages.

Daniel Black is a handwritten-style typeface that conveys sincerity, especially when used for key messaging.

When producing materials, use the typefaces suggested if available to you; if they are not available to you, we suggest Arial as a standard default, as it is generally platform-agnostic.

NOTE: Text color-contrast ratios should always comply with Section 508 guidelines.
