

**APPLICATION FOR INVOLUNTARY ADMISSION ON CERTIFICATE
OF A DIRECTOR OF COMMUNITY SERVICES OR DESIGNEE
(Mental Hygiene Law §9.37)**

State and Federal laws prohibit discrimination based on race, ethnicity, national origin, age, gender, sexual orientation, or disability.

I. GENERAL PROVISIONS FOR INVOLUNTARY ADMISSION ON CERTIFICATE OF A DCS OR DESIGNEE

A. Standard for Admission

If, in the opinion of a Director of Community Services (DCS) or an examining physician duly designated by them, a person has a mental illness for which immediate inpatient care and treatment in a hospital is appropriate and which is likely to result in serious harm to the person or others, the person may be admitted to a hospital providing such care and treatment, upon the certificate of the DCS or designee accompanied by an application for admission of the person.

"Likely to result in serious harm" means:

- a substantial risk of physical harm to the person as manifested by threats of or attempts at suicide or serious bodily harm or other conduct demonstrating that the person is dangerous to himself, or
- a substantial risk of physical harm to other persons as manifested by homicidal or other violent behavior by which others are placed in reasonable fear of serious physical harm, or
- a substantial risk of physical harm to the person due to an inability or refusal, as a result of their mental illness, to provide for their own essential needs such as food, clothing, necessary medical care, personal safety, or shelter

B. Application and Certification

The application made by the DCS or his or her designee must be supported and accompanied by a Certificate of Examination by Director of Community Services or Designee (Form 475A), except under the circumstances described in the next paragraph.

In counties with a population of less than 200,000, a DCS who is not a physician but who is a licensed psychologist or a licensed clinical social worker may apply for admission of a person without a medical examination by a designated examining physician, if:

- A hospital approved by the State Commissioner of Mental Health to admit patients pursuant to Section 9.39 of the Mental Hygiene law is not located within 30 miles of the person;
- The DCS has made a reasonable effort to locate a designated examining physician but such a designee is not immediately available; and
- The DCS's application is supported by a Certificate of Observation by Director of Community Services (Form 475B) which states that after personal observation of the person, the DCS reasonably believes that the person may have a mental illness which is likely to result in serious harm to himself or herself or others and that inpatient care and treatment in a hospital may be appropriate.

Examining physicians designated by the DCS must be approved by the State Commissioner of Mental Health. A person is disqualified from acting as an examining physician if:

- They are not licensed to practice medicine in New York State,
- They are a relative of the person certified to be in need of hospitalization,
- They are a manager, trustee, visitor, proprietor, officer, director, or stockholder of the hospital to which it is proposed to admit such person, or has any financial interest in such hospital other than receipt of fees, privileges or compensation for treating or examining patients in such hospital, or
- They are on the staff of a proprietary hospital to which it is proposed to admit such person.

C. Custody and Transport

After completing the application, the DCS or their designee is empowered to take into custody, detain, transport, and provide temporary care for the person. Upon request of the DCS or designee, it shall be the legal duty of peace officers, acting pursuant to their special duties, or police officers to take into custody and transport the person as directed by such DCS or designee. Alternatively, the DCS or designee may request that an ambulance service provide transportation.

D. Hospital Evaluation

If a person is to be admitted on the basis of Form 475A (Certificate of Examination by Director of Community Services or Designee), the need for immediate hospitalization must be confirmed by a staff physician of the hospital prior to admission.

If a person is to be admitted on the basis of Form 475B (Certificate of Observation by Director of Community Services), a staff physician must certify upon examination of the person prior to admission that the person has a mental illness for which immediate inpatient care and treatment in a hospital is appropriate and which is likely to result in serious harm to the person or others. The need for hospitalization must then be confirmed by another staff physician within twenty-four hours after admission, using Form 475C (Examination within 24 hours).

Following admission, the patient may be involuntarily retained beyond 72 hours (excluding Sundays and holidays) only if they are examined by another physician who is a staff psychiatrist, and Form 475D (Examination within 72 Hours) is completed.

If no request for a court hearing is made, the hospital director may retain the patient for up to 60 days from the date of admission without taking other action. If the hospital director determines that the condition of the patient requires hospitalization beyond 60 days:

- The patient may remain as a voluntary or informal patient if they are willing and suitable for such status.
- If the patient is unwilling or not suitable to remain as a voluntary or informal patient, the director must apply, before the end of the 60-day period, for a court order authorizing continued retention of the patient. The director must also inform the patient, the Mental Hygiene Legal Service, and others who received the original notice of the patient's commitment, that said director is applying for a court order, to give them the opportunity to request a hearing before the court, if they so desire.

E. Use of Electronic Signatures

Forms 475, 475A, 475B, 475C, and 475D may be completed and signed electronically, pursuant to the Electronic Signatures and Records Act, including via a provider's electronic health record. Providers must ensure the forms can be printed and/or delivered in the approved format to the admitting hospital, appropriate Court, and Mental Hygiene Legal Services, and other approved recipients.

II. GENERAL INFORMATION**A. Mental Hygiene Legal Service**

The Mental Hygiene Legal Service is an agency of the New York State Supreme Court which provides protective legal services, advice and assistance, including representation, to all patients admitted to psychiatric facilities. Patients are entitled to be informed of their rights regarding hospitalization and treatment, and have a right to a court hearing, to be represented by a lawyer, and to seek independent medical opinion.

There is a Mental Hygiene Legal Service office in many psychiatric hospitals. Where there is no office at the hospital, a representative of the Service visits periodically and frequently. Any patient or anyone on their behalf may see or communicate with a representative of the Service by telephoning or writing directly to the office of the Service or by requesting someone on the staff of the patient's ward to make such arrangements for them.

The Mental Hygiene Legal Service for the hospital may be reached at _____.

B. Reimbursement

The patient is legally responsible for the cost of care. Additionally responsible are the patient's spouse and in some cases the parents of a patient under the age of 21. Also legally responsible are the committee, guardian, or trustee of a trust fund established for support of the patient, or any fiduciary or payee of funds for the patient. Charges may be waived or reduced when there is inability to pay. Any person who applies for a waiver or reduction of charges must cooperate in a financial investigation to determine ability to pay.
