

Readmissions Quality Collaborative Inpatient Services Monthly Reporting Questions

1. Number of admission during the previous calendar month
2. Tracking the quality indicator: number of clients newly identified as having had a readmission.

Please enter the number of clients ***newly identified during the previous calendar month*** as having had a readmission within 30 days after discharge from your inpatient service, regardless of when that discharge and readmission occurred.

It is recommended that this data be obtained from the "New Quality (QI) Flag" tab of the PSYCKES (Psychiatric Services and Clinical Knowledge Enhancement System) Hospital-Specific Behavioral Health 30-day Readmissions indicator; however, other data source(s) may be used. In order to track trends over time, please be sure to use the same data source(s) every month.

- a. Optional: Data source(s) for identifying readmissions (check all that apply):
 - PSYCKES Hospital-Specific Behavioral Health Readmissions 30-day indicator "New QI Flag" tab
 - Hospital's internal data
 - BHO (Behavioral Health Organization)
 - Client/collateral
 - Other
3. Number of individuals identified during the previous calendar month as being eligible for any project intervention
 4. Number of individuals who received any project intervention during the previous calendar month
 5. **Selected Strategies:** Inpatient services report on one or more strategies to reduce readmissions, selected from the list provided by the collaborative. For each selected strategy:

Number of individuals who received [**selected project intervention**] during the previous calendar month
 6. **Enhanced Discharge Planning Process(es):** Inpatient services are required to implement and report on at least one enhanced discharge process. Each service defines the discharge process(es) it will implement and report on.

Please note:

1. Some of the strategies in question 5 satisfy this requirement; in that case, inpatient services will report on at least one other strategy
2. If you have already entered an intervention in the "selected strategies" section, please do not re-enter it in the enhanced discharge process section

For each discharge process:

Number of individuals who received [**specified discharge process**] during the previous calendar month

Optional: Additional discharge planning process being implemented:

Briefly define additional enhanced discharge planning process being integrated into on-going operations and tracked monthly as part of the current readmissions project (if any).

Number of individuals for whom this discharge process was performed during the previous calendar month
