- **Manually:**

- Provider attests to one of the following:
 - Client signed PSYCKES consent, DOH Health Home Patient Information Sharing consent, BHCC consent
 - Verbal consent
 - Clinical emergency
 - Client is currently being served by/transferred to your agency

Levels of Access to Client Data

- **Signed Consent (PSYCKES, BHCC, DOH Health Home/CCO)**
 - Allows access to all available data (including data with special protections such as SUD, HIV, family planning, genetic testing), for 3 years after the last billed service
- **Verbal Consent**
 - Allows access to limited data (excluding data with special protections) for 9 months
- **Clinical Emergency**
 - Allows access to all available data (including data with special protections) for 72 hours
- **Attestation of service** (*Client currently being served by/transferred to your agency*)
 - This will link client to your agency for Recipient Search reports but will not provide access to the clinical summary

DOH Health Home Consent Logic (5055/5021)

 - Work for a Health Home or Care Management program, according to MAPP OR
 - Work for a Care Coordination Organization (CCO), providing Health Home Care Management within OPWDD, and have billed at least one CCO case management service in the past year
- In PSYCKES, the DOH consent check box option will only be enabled once users indicate in their User Role Profile that they work for either:
 - Health Home Administration/CCO, or
 - Care Management program
- Access will stay active as long as the client's HH/CM enrollment is verified in MAPP system (90-day grace period after entry in PSYCKES)

My QI Report

My QI Report

- Tool for managing quality improvement efforts
- Updated monthly
- Eligible Population (denominator): clients or events/episodes plus other parameters depending on quality indicator specifications
- Number with QI Flag (numerator): clients or events/episodes that meet criteria
- Compare prevalence rates for provider agency, region, state
- Filter report by program type (e.g., HH or CM enrolled), client residence or provider location region/county
- HH/CM Sites tab breaks out QI prevalence by HH/CMA
- Drill down into list of recipients who meet criteria for flag
- Reports can be exported to Excel and PDF

Understanding My QI Report

- Attributing clients to agency QI reports:
 - Billing: Clients linked to provider agency if billed by agency in the past 9 months
 - MAPP HH/CMA Database: Clients linked to provider agency if enrolled in HH or CMA according to MAPP
 - This rule is used to automatically link clients to providers so that current clients are included in the report each month
- Period of observation for the quality indicator:
 - Assessed by a measure, varies for each measure
 - For example, the period of observation for the High Utilization quality indicator is 13 months
