

Office of Mental Health

**Collaborative Care For Perinatal Mental Health In Obstetrics and Gynecology and Family
Medicine Practices
RFP#MH253030
Questions & Answers**

Q1. We are interested in applying in applying but are hoping you can provide some guidance on the measures expected to be track?

A1. NYS OMH monitors process and outcomes measures to hold sites accountable to fidelity implementation of the evidence based Collaborative Care model. All providers doing Collaborative Care in New York State report the standard measures available here: https://drive.google.com/file/d/1kTFQ850gt_2e_ZYEAR4xK4p3nEcYFx9V/view?pli=1. There may be additional measures specific to the Perinatal population that are collected as well.
