December 2020 Monthly Report

OMH Facility Performance Metrics and Community Service Investments

Report Overview:

This report is issued pursuant to the State Fiscal Year 2020-21 Budget agreement which requires that "The Commissioner of Mental Health shall provide monthly status reports of the 2020-21 community investments and the impact on inpatient census to the Temporary President of the Senate, the Speaker of the Assembly, and the Chairs of the Senate and Assembly fiscal committees. Such reports shall include state operated psychiatric facility census; admissions and discharges; rate of Medicaid psychiatric inpatient readmissions to any hospital within thirty days of discharge; Medicaid emergency room psychiatric visits; capital beds; budgeted capacity for that month; budgeted capacity change from previous month; descriptions of 2020-21 new community service investments; average length of stay; and number of long-term stay patients. Such reports shall include an explanation of any material census reductions, when known to the facility."

This report is comprised of several components:

- 1. State Psychiatric Center (PC) descriptive metrics;
- 2. Description and status of community service investments;
- 3. Psychiatric readmissions to hospitals and emergency rooms for State PC discharges;
- 4. Psychiatric readmissions to hospitals and emergency rooms for Article 28 and Article 31 hospital psychiatric unit discharges.

Overview of Community Service Investment Tables

Detailed data tables provide information on funding and utilization levels for all programs funded by reinvestment of State PC reduction savings, and from reinvestment of the State share of Medicaid for inpatient hospital bed reductions. Funding for these programs began in 2014. These utilization tables provide a general description of the programs, the program location or coverage area, age groups served, prior capacity (when applicable), funding level, and the number of people served. During program start-up, progress notes indicate when funds were issued on contract or via the county State Aid Letter.

The children's HCBS waiver program transferred into a combined DOH waiver program. OMH continues to support this program through Medicaid fund transfers.

The glossary of services, which was previously included in the monthly report, is now posted to the OMH Transformation website at https://www.omh.ny.gov/omhweb/transformation/.

Notes:

1. Research units and Sexual Offender Treatment Programs (SOTP) were excluded.

2. Budgeted capacity reflects the number of operating beds during the month of the report.

3. Capacity reductions occur only after a consistent ninety day period of time that the beds remain vacant, as demonstrated by the October to December census data.

4. Discharge includes discharges to the community and transfers to another State IP facility.

5. Long Stay is defined as: Length of stay over one year for adult and forensic inpatients, and over 90 days for child inpatients.

6. Monthly Average Daily Census defined as: Total number of inpatient service days for a month divided by the total number of days in the month. Population totals displayed may differ from the sum of the facility monthly census values due to rounding.

Notes:

1. Research units and Sexual Offender Treatment Programs (SOTP) were excluded.

2. Readmissions were defined as State PC and Medicaid (Article 28 /31) psychiatric inpatient readmission events occurring within 1 to 30 days after the State PC discharge. The first readmission within the 30 days window was counted. The denominator for this measure was based on State inpatient discharges to the community. The discharge cohort has a 6-month lag to allow time for completion of Medicaid claim submissions. The discharges that were no longer qualified for Medicaid services (lost Medicaid eligibility, had Medicare or third party insurance) were excluded from the discharge cohort but who had a state operated service in the 3 months post discharge were retained in the discharge cohort.

3. ER utilization was identified using Medicaid claims and encounters only. The numerator included the first Psychiatric ER/CPEP event that occurred within thirty days post discharge. The denominator for this measure was based on State inpatient discharges to the community. The discharge cohort has a 6-month lag to allow time for completion of Medicaid claim submissions. The discharges that were no longer qualified for Medicaid services (lost Medicaid eligibility, had Medicare or third party insurance) were excluded from the discharge cohort.

*Note this rate may not be stable due to small denominator (less than 20 discharges in the denominator).

Notes:

1. Private (Article 31) hospitals are classified as Institutes for Mental Diseases (IMD), and as such, are not reimbursed by Medicaid for inpatient treatment in their facilities for persons aged 22-64.

2. Data are presented by county of discharging hospital location and age group (child or adult). If an entity operates more than one hospital and county is not available on the records (e.g., managed care encounters), the discharges and readmissions are assigned to one of the hospitals.

3. Hospitals that closed prior to 01/1/2021 are excluded.

4. The denominators for the metrics were based on discharges to the community. The discharge cohort has a 6-month lag to allow time for completion of Medicaid claim submissions. The discharges that were no longer qualified for Medicaid services (lost Medicaid eligibility, had Medicare or third party insurance) were excluded from the discharge cohort.

5. Readmissions were defined as State PC and Medicaid psychiatric (Article 28 /31) inpatient events occurring within 1 to 30 days after the Article 28 /31 discharge. The readmission was only counted once.

6. When the psychiatric unit is a child or adolescent unit, persons aged 21 or younger are counted as a child. For adult units, persons aged 16 or older are counted as adults.

7. ER data were extracted from Medicaid claims and encounters only. The numerator included the first Psychiatric ER/CPEP event that occurred within thirty days post discharge.
