## February 2026 Monthly Report

### OMH Facility Performance Metrics and Community Service Investments

#### *Report Overview*

This report is comprised of several components:

1. State Psychiatric Center (PC) descriptive metrics;
2. Description and status of community service investments;
3. Psychiatric readmissions to hospitals and emergency rooms for State PC discharges;
4. Psychiatric readmissions to hospitals and emergency rooms for Article 28 and Article 31 hospital psychiatric unit discharges.

#### *Overview of Community Service Investment Tables*

Detailed data tables provide information on funding and utilization levels for all programs funded by reinvestment of State PC reduction savings, and from reinvestment of the State share of Medicaid for inpatient hospital bed reductions. Funding for these programs began in 2014. These utilization tables provide a general description of the programs, the program location or coverage area, age groups served, prior capacity (when applicable), funding level, and the number of people served. During program start-up, progress notes indicate when funds were issued on contract or via the county State Aid Letter.

The glossary of services is posted to the OMH Transformation website at <https://www.omh.ny.gov/omhweb/transformation/>.

#### *Reporting Schedule & Data Updates*

Tables 3a-3n contain a column called “Reporting Schedule,” which indicates if the information is updated on a monthly basis or on a quarterly basis. For information that is updated on a quarterly basis, the report will only reflect a change in information every three months on a calendar year quarterly schedule (i.e., updates will be made in March, June, September, and December reports), rather than monthly. When updates are quarterly there will be no change in the data in the monthly reports in between the quarterly reports, although services are still occurring in those months.

Tables 4 and 5 also have information that is updated on a quarterly basis. Hospital-level performance on the post-discharge metrics of Hospital Readmission and Emergency Utilization in these tables is based on Medicaid billing data. To ensure billing data is received prior to calculating the metrics, the discharge cohort evaluated is based on a time period 9 months prior to the date of the monthly report and is updated on a quarterly basis.

**Notes:**

1. Research units and Sexual Offender Treatment Programs (SOTP) were excluded.
2. Budgeted Capacity reflects the number of operating beds during the month of the report.
3. Admission includes returns from temporary transfers to external hospitals.
4. Discharge includes discharges to the community and transfers to another State IP facility.
5. Out of Catchment Area Placements are defined as: The number of individuals referred to each facility but admitted outside of the facility's catchment area at the time of referral.
6. Long Stay is defined as: Length of stay over one year for adult and forensic inpatients, and over 90 days for child inpatients.
7. Monthly Average Daily Census defined as: Total number of inpatient service days for a month divided by the total number of days in the month. Population totals displayed may differ from the sum of the facility monthly
8. Census Exceeding Budgeted Capacity reflects the total number by which average daily census exceeded the current budgeted capacity.
9. Hutchings PC children's beds were closed in October to complete the conversion of these units for SUNY Upstate Hospital to operate expanded children's inpatient programming. SUNY bed expansion was reflected in Table 5, which includes a new specialty unit for youth with psychiatric and intellectual or developmental disabilities.

**Notes:**

1. Research units and Sexual Offender Treatment Programs (SOTP) were excluded.
2. Readmissions were defined as State PC and Medicaid (Article 28 /31) psychiatric inpatient readmission events occurring within 1 to 30 days after the State PC discharge. The first readmission within the 30 days window was counted. The denominator for this measure was based on State inpatient discharges to the community. The discharge cohort has a 6-month lag to allow time for completion of Medicaid claim submissions. The discharges that were no longer qualified for Medicaid services (lost Medicaid eligibility, had Medicare or third party insurance) were excluded from the discharge cohort but who had a state operated service in the 3 months post discharge were retained in the discharge cohort.
3. ER utilization was identified using Medicaid claims and encounters only. The numerator included the first Psychiatric ER/CPEP event that occurred within thirty days post discharge. The denominator for this measure was based on State inpatient discharges to the community. The discharge cohort has a 6-month lag to allow time for completion of Medicaid claim submissions. The discharges that were no longer qualified for Medicaid services (lost Medicaid eligibility, had Medicare or third party insurance) were excluded from the discharge cohort.

\*Note this rate may not be stable due to small denominator (less than 20 discharges in the denominator).

**Notes:**

- Private (Article 31) hospitals are classified as Institutes for Mental Diseases (IMD), and as such, are not reimbursed by Medicaid for inpatient treatment in their facilities for persons aged 22-64.
  - Data are presented by county of discharging hospital location and age group (child or adult). If an entity operates more than one hospital and county is not available on the records (e.g., managed care encounters), the discharges and readmissions are assigned to one of the hospitals.
  - Hospitals that closed prior to 01/01/2026 are excluded.
  - The denominators for the metrics were based on discharges to the community. The discharge cohort has a 6-month lag to allow time for completion of Medicaid claim submissions. The discharges that were no longer qualified for Medicaid services (lost Medicaid eligibility, had Medicare or third party insurance) were excluded from the discharge cohort.
  - Readmissions were defined as State PC and Medicaid psychiatric (Article 28 /31) inpatient events occurring within 1 to 30 days after the Article 28 /31 discharge. The readmission was only counted once.
  - When the psychiatric unit is a child or adolescent unit, persons aged 21 or younger are counted as a child. For adult units, persons aged 16 or older are counted as adults.
  - ER data were extracted from Medicaid claims and encounters only. The numerator included the first Psychiatric ER/CPEP event that occurred within thirty days post discharge.
  - Change at SUNY Health Science Center-University Hospital was decreased by 1 child beds from 37 to 36, effective date is 12/19/2025.
  - Claxton-Hepburn Medical Center was changed from Article 28 to Article 31, effective date is 10/23/2024.
  - Change at Huntington Hospital was increased by 2 adult beds from 21 to 23, effective date is 12/05/2025.
  - Change at The Long Island Home was decreased by 5 adult beds from 98 to 93, and was increased by 13 child beds from 52 to 65 and was increased total capacity by 8 from 150 to 158 , effective date is 7/23/2025.
  - Change at Montefiore Medical Center was increased by 21 child beds from 0 to 21, due to a new inpatient unit open, effective date is 12/22/2025.
  - Change at NYC-HHC Harlem Hospital Center was decreased by 8 adult beds from 52 to 44, effective date is 12/01/2025.
  - Change at St. Luke's-Roosevelt Hospital Center was increased by 2 child beds from 27 to 29, effective date is 12/24/2024.
  - Change at Long Island Jewish Medical Center was increased by 10 adult beds from 204 to 214, effective date is 7/14/2025.
- Additional Note: North Shore University Hospital @ Syosset closed, resulting in decrease of 20 beds, effective in August 2024 \*Note: This rate may not be stable due to small denominator (less than 20 discharges in the denominator).
